YUP'S MARKER

I get this original lettering from "Nuts To You"(nut store). This lettering's original purpose was the name of nut store written on signbord. My font-face's new purpose is comicbook's letter. Because Yup's Marker font's characteristics are fit to make dynamical effect.

Concise This font is low contrast and San-Serif. These points make concisely.

Uneven This font's silhouette is irregular. Some letters are bigger and wider than other letters. These characteristics make the text seem to write with hand.

Vibrant Each letter has different rotation. Each end of strokes has different angle. These points make vibrant text.
